

Acrylic Foam Tape

Description

Naikos acrylic foam tape series consists of conformable, double sided acrylic foam tape with high performance acrylic adhesive. This provides an extraordinarily strong double sided foam tape that adheres to a broad range of surface energy. These foam tapes design enables bonding of many different surface energy substrates/materials, they provide resilient bonding solutions in just about anything you can dream up.

Construction

Features

- * Fast and easy-to-use permanent bonding method provides high strength and long-term durability indoors and outdoors
- * Multi material bonding for high, medium or low surface energy substrates
- * Soft foam enables stress relaxation & an easy application
- * Sound and shake proof
- * Can replace mechanical fasteners (rivets, welding, screws) or liquid adhesives
- * Eliminate drilling, grinding, refinishing, screwing, welding and clean-up

Application

- * Automotive industry
- * Electronic, digital products assembly
- * Composites and plastics processing
- * Dustproof and airproof of glass
- * Building operations
- * Appliances
- * Metalworking
- * Advertising

Properties

Item	NKS-8###	NKS-7###
Color	Clear / Grey / White / Black	Clear / Grey / White / Black
Carrier	Acrylic Foam	Acrylic Foam
Adhesive	Acrylic Adhesive	Acrylic Adhesive
Total Thickness	0.25-3.0 mm(10~120 mil)	0.25-3.0 mm(10~120 mil)
90° Peel Adhesion	≥26 N/cm(15 lb/in)	≥34 N/cm(20 lb/in)
Static Shear(7days@22°C/72°F)	1000 g	1500 g
Temperature Resistance	-20~120 °C(-4~+248 °F)	-40~150 °C(-40~+302 °F)
Width	5~830/960 mm(0.2~33/37.8 inch) (Customized Width Available)	5~610/900 mm(0.2~24/35 inch) (Customized Width Available)
Length	33 m(36 yards) (Customized Length Available)	33 m(36 yards) (Customized Length Available)
